

Oppose Approval of 16 Macro Tower Antennas, spraying Excessive Effective Radiated Power — out 3+ miles from the Petaluma Creamery all day and night!

Public Safety

In 2011, the International Agency for Research on Cancer's classified RF microwave radiation — from any source — as Group 2B, "possibly carcinogenic to humans based on an increased risk for glioma, a malignant type of brain cancer." Citing Studies from 2011 to 2018, Dr. Len-nart Hardell & other members from that committee are calling to change RF Microwave radiation to **Group 1** — a **definite human carcinogen**

Privacy

Governor Brown vetoed California's 2017 Small Cell Bill (Senate Bill 649), so, fortunately, all California cities retained their authority to regulate the operations of cell phone towers to protect residents' constitutionally-guaranteed rights to privacy and safety. 4G/5G cell towers that are constructed close to homes is for **24/7 surveillance and crowd control**.

Property Values

Cell towers by California Law need to be constructed using the least intrusive means. Cell phone towers constructed close to homes are very intrusive and significantly reduces property values. A peer-reviewed study in the 2005 Appraisal Journal, said homes near cell phone towers are **devalued 20% to 25%**.

How You Can Help:

1. **Attend a Go-To-Meeting Webinar: Wed Aug 5, 2020** from 7:00-8:00 pm
2. Go to **UnsafeAtAnyG.com/Petaluma** to learn more & get on our email list.
3. **Attend the Planning Commission** meeting (via Zoom) on **Aug 11, 2020**
Zoom link is on the AGENDA at <https://cityofpetaluma.org/meetings/>

Go To Meeting: Join the meeting from your computer, tablet or smartphone
